

# Bake the Perfect Muffin with Bake'n Joy!

*We have the ingredients to help you develop the Perfect Muffin!*

We've been in the muffin business for decades – developing premium dry mixes and bases to help the busy baker in our early days; we were the first to bring “thaw, scoop and bake” frozen batters to the market; and we've perfected the ultimate convenience of high-quality ready-to-bake predeposited muffin batters (and came out with the only muffin batter requiring NO MUFFIN PANS!).

Take a look at what we have to offer. In today's world, its even more important to offer the best muffin your customers can find! We never scrimp on quality for any reason, nor should you....
